Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the fiduciary funds of the Herricks Union Free School District as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the fiduciary fund of the Herricks Union Free

School District as of June 30, 2019, and the respective changes in financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of District's total OPEB liability, schedule of District's proportionate share of the net pension liability, and the schedule of District's contributions on pages 1 through 15 and 60 through 64, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Herricks Union Free School District's basic financial statements. The other supplementary financial information as listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements.

The other supplementary financial information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary financial information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 11, 2019, on our consideration of the Herricks Union Free School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Herricks Union Free School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Herricks Union Free School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

The following is a discussion and analysis of the Herricks Union Free School District's (the "District") financial performance for the fiscal year ended June 30, 2019. This section is a summary of the District's financial activities based on currently known facts, decisions, or conditions. It is also based on both the District-Wide Financial Statements and Fund Financial Statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the District's financial statements, which immediately follow this section.

1. FINANCIAL HIGHLIGHTS

- The District's total net position, as reflected in the District-Wide Financial Statements is a deficit of (\$129,491,671) which is an increase to the deficit of \$8,399,399 from the prior year. This was primarily due to an increase in the total other post-employment benefits obligation and bond anticipation notes payable offset by an increase in capital assets.
- On the District-Wide Financial Statements, revenues increased by 1.97% primarily due to an increase in real property tax revenue.
- The District established and funded a retirement contribution reserve subfund to offset the cost of future contributions to the Teachers' Retirement System.
- The District continued to offer all programs, without reducing services.
- On May 21, 2019, the proposed 2019-2020 budget in the amount of \$117,541,264 was authorized by the District's residents. This budget was under the NYS property tax cap and was approved by 71% of the voters.

2. OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts: management's discussion and analysis (this section), the basic financial statements, required supplementary information, and other supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

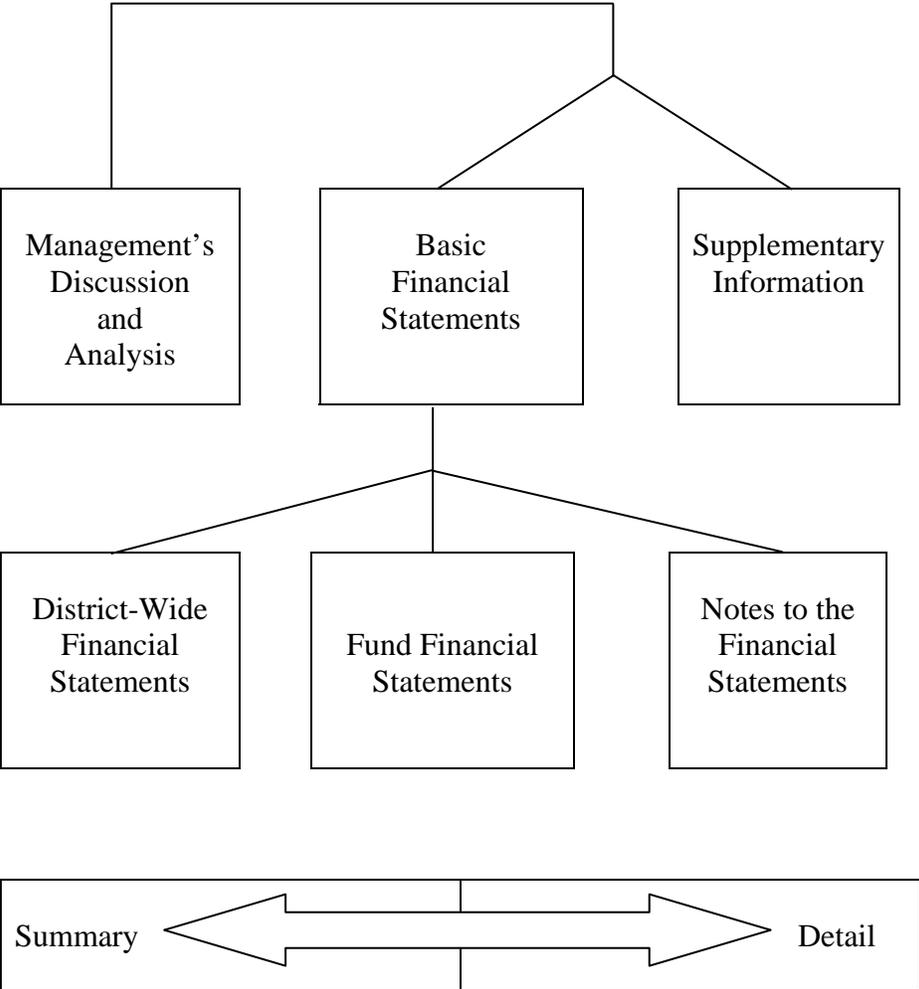

- The first two statements are *District-Wide Financial Statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *Fund Financial Statements* that focus on *individual parts* of the District, reporting the operations in *more detail* than the District-Wide Statements.
 - The *Governmental Fund Statements* tell how basic services such as instruction and support functions were financed in the *short term* as well as what remains for future spending.

**HERRICKS UNION FREE SCHOOL DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

- *Fiduciary Fund Financial Statements* provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others, including the employees of District.

The financial statements also include notes that provide additional information about the financial statements and the balances reported. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District’s budget for the year. Table A-1 shows how the various parts of this annual report are arranged and related to one another.

A) District-Wide Statements

The District-Wide Financial Statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two District-Wide Financial Statements report the District's net position and how it has changed. Net position, the difference between the assets and deferred outflows of resources, and liabilities and deferred inflows of resources is one way to measure the financial health or *position* of the District.

- Over time, increases and decreases in net position are an indicator of whether the financial position is improving or deteriorating, respectively.
- For assessment of the overall health of the District, additional non-financial factors such as changes in the District's property tax base and the condition of buildings and other facilities should be considered.

Net position of the governmental activities differ from the governmental fund balances because governmental fund level statements only report transactions using or providing current financial resources. Also, capital assets are reported as expenditures when financial resources (money) are expended to purchase or build said assets. Likewise, the financial resources that may have been borrowed are considered revenue when they are received. The principal and interest payments are both considered expenditures when paid. Depreciation is not calculated if it does not provide or reduce current financial resources. Finally, capital assets and long-term debt are both accounted for in account groups and do not affect the fund balances.

District-Wide Financial Statements are reported utilizing an economic resources measurement focus and full accrual basis of accounting that involves the following steps to format the Statement of Net Position:

- Capitalize current outlays for capital assets;
- Report long-term debt as a liability;
- Depreciate capital assets and allocate the depreciation to the proper program/activities;
- Calculate revenue and expense using the economic resources measurement focus and the accrual basis of accounting; and
- Allocate net position balances as follows:
 - *Net investment in capital assets*;
 - *Restricted net position* are those with constraints placed on the use by external sources (creditors, grantors, contributors or laws or regulations of governments) or approved by law through constitutional provisions or enabling legislation;
 - *Unrestricted net position* is net position that does not meet any of the above restrictions.

B) Fund Financial Statements

The Fund Financial Statements provide more detailed information about the District’s funds. Funds are accounting devices that the District uses to keep track of specific revenue sources and spending on particular programs. The funds have been established by the laws of the State of New York.

The District has two kinds of funds:

i) Governmental funds

Most of the basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the programs of the District. Because this information does not encompass the additional long-term focus of the District-Wide Financial Statements, additional information in separate reconciliation schedules explains the relationship (or differences) between them. In summary, the Governmental Fund Financial Statements focus primarily on the sources, uses, and balances of current financial resources and often has a budgetary orientation. Included are the general fund, special aid fund, school lunch fund, debt service fund and capital projects fund. Required statements are the Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balances.

ii) Fiduciary funds

The District is the trustee or *fiduciary* for assets that belong to others, such as scholarship funds and student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the District-Wide Financial Statements because it cannot use these assets to finance its operations. Fiduciary fund reporting focuses on net position and changes in net position, and is developed using the economic resources measurement focus and the accrual basis of accounting.

3. FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

A) Net Position

The District's total net position (deficit) increased by \$8,399,399 resulting in a deficit of (\$129,491,671) in the fiscal year ended June 30, 2019, as detailed in Table A-3.

Table A-3 – Condensed Statement of Net Position

	Fiscal Year 2019	Fiscal Year 2018	Increase (Decrease)	Total Percentage Change

Current assets and other assets increased \$1,907,083 from 2018 to 2019 primarily due to an increase in cash offset by a decrease in accounts receivable. Capital assets (net of depreciation) increased by \$5,967,468. This was attributable to current year additions offset by current year depreciation. The net pension asset - proportionate share increased by \$3,290,258 compared to the prior year as a result of the actuarial valuation provided by the state. Deferred outflows of resources increased by \$11,769,765 and relate to the amortization of pension related items and the change in the District's contributions

**HERRICKS UNION FREE SCHOOL DISTRICT

subsequent to the measurement date, as discussed in Note 15 as well as outflows related to the total other post-employment benefits obligation as discussed in Note 17.

Other liabilities increased by \$6,267,937. This increase was primarily attributable to an increase in bond anticipation notes payable, offset by a decrease in accounts payable. Long-term liabilities increased by \$27,831,369 mostly due to increases in the District's total other post-employment benefits obligation, compensated absence payable, and net pension liability - proportionate share, offset by decreases in energy performance contract payable, and bonds payable. The changes in deferred inflows of resources represent amortization of the gain on defeasance as discussed in Note 14, and amortization of pension related items as discussed in Note 15.

The net investment in capital assets relates to the investment in capital assets at cost such as land, construction in progress, buildings & improvements, and furniture & equipment, net of depreciation and related debt. This number increased from the prior year by \$10,084,288. This is due to current year capital asset additions net of current year depreciation, and the principal payments on debt.

The restricted net position refers to the District's reserves: workers' compensation, unemployment, retirement contribution, insurance, repairs, employee benefit accrued liability, and capital reserve as well as the net position of the debt service fund. The increase in the balance of \$1,547,183 primarily reflects an increase in the retirement contribution reserve. Changes to the restricted net position are discussed further in Section 4 "Financial Analysis of the District's Funds".

The unrestricted net deficit relates to the balance of the District's net position. This deficit amount of (\$185,311,700) is an increase of \$20,030,870 from the prior year deficit. The increase from prior year is primarily due to the increase in the total other post-employment benefits obligation offset by an increase in deferred outflows related to the total other post-employment benefits obligation as discussed in Note 17.

B) Changes in Net Position

The results in this year's operations as a whole are reported in the Statement of Activities in a programmatic format in the accompanying financial statements. In the accompanying financial statements STAR (school tax relief) revenue is included in the other tax items line. However, in this MD&A, STAR revenue has been combined with real property taxes. A summary of this statement for the years ended June 30, 2019 and 2018 is as follows:

The District's total fiscal year 2019 revenues totaled \$117,835,885. (See Table A-4). This is an increase of \$2,271,473 or 1.97% over the prior year. Real property taxes and other tax items and state sources accounted for most of the District's revenue by contributing 83.71% and 10.61%, respectively, of total revenue. (See Table A-5). The remainder came from charges for services, operating grants, use of money and property, and other miscellaneous sources.

The total cost of all programs and services totaled \$126,235,284 for fiscal year 2019. This is an increase of \$3,723,862 or 3.04% from the prior year. These expenses are predominantly related to general instruction and pupil transportation which account for 84.81% of district expenses. (See Table A-6). The District's general support activities accounted for 13.02% of total costs.

The users of the District's programs financed \$2,679,224 of the cost. The federal and state governments subsidized certain programs with operating grants of \$2,472,435.

4. FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Variances between years for the Governmental Fund Financial Statements are not the same as variances between years for the District-Wide Financial Statements. The District's governmental funds are presented on the **current financial resources measurement focus** and the **modified accrual basis of accounting**. Based on this presentation, governmental funds do not include long-term debt liabilities for the funds' projects and capital assets purchased by the funds. Governmental funds will include the proceeds received from the issuance of debt, the current payments for capital assets, and the current payments for debt.

As of June 30, 2019, the District's combined governmental funds reported a total fund balance of \$15,833,516 which is a decrease of \$4,141,877 from the prior year.

A summary of the change in fund balance for all funds is as follows:

A) General Fund

The increase in the fund balance in the general fund is due to revenues exceeding expenditures and other financing uses.

**HERRICKS UNION FREE SCHOOL DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

B) School Lunch Fund

The increase in the total fund balance of the school lunch fund of \$171,738 is the operating profit of the school lunch fund for the current year of \$130,803 as well as the transfer from the general fund of \$40,935.

C) Debt Service Fund

The increase in the debt service fund balance of \$44,066 is primarily the result of interest earnings.

D) Capital Projects Fund

The decrease in the capital projects fund of \$5,910,892 is primarily a result of capital outlays for the 2016 Bond capital projects offset by a transfer of \$1,873,786 from the general fund.

5. GENERAL FUND BUDGETARY HIGHLIGHTS

A) 2018-2019 Budget

The District’s general fund adopted budget for the year ended June 30, 2019 was \$114,391,671. This amount was increased by encumbrances carried forward from the prior year in the amount of \$720,745 and budget revisions in the amount of \$1,862,654 which resulted in a final budget of \$116,975,070. The majority of the funding was real property taxes and STAR revenue of \$96,492,264.

B) Change in the General Fund Unassigned Fund Balance (Budget to Actual)

The general fund’s unassigned fund balance is a component to total fund balance that is the residual of prior years’ excess revenues over expenditures, net of transfers to reserves and designations to fund subsequent years’ budgets. It is this balance that is commonly referred to as “fund balance”. The change in this balance demonstrated through a comparison of the actual revenues and expenditures for the year compared to budget are as follows:

Opening, unassigned fund balance	\$4,575,666
Revenues over budget	956,985
Expenditures and encumbrance under budget	2,729,707
Transfers to reserves	(2,103,738)
Interest to reserves	(96,004)
Budget revision - bus purchase	(54,316)
Change in nonspendable	(6,649)
Assigned -appropriated for June 30, 2020 budget	(1,300,000)
Closing, unassigned fund balance	\$4,701,651

The opening unassigned fund balance of \$4,575,666 is the June 30, 2018 unassigned fund balance.

**HERRICKS UNION FREE SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

The revenues over budget of \$956,985 were primarily due to variances in other real property tax items, charges for services, Medicaid reimbursement, state sources, and other miscellaneous revenue (see Supplemental Schedule #1 for detail).

The expenditures and encumbrances under budget of \$2,729,707 were primarily due to instruction, central services, transportation, and employee benefits (see Supplemental Schedule #1 for detail) less than estimated.

The District utilized \$422,245 of the workers' compensation reserve and \$22,266 of the unemployment reserve. The District funded \$974,000 to the employee retirement reserve, \$500 to the insurance reserve for property loss, \$73,749 to the workers' compensation reserve, and \$1,500,000 to the capital reserve. The District also transferred \$56,491 from the unemployment reserve to the employee benefit accrued liability reserve.

The District budgeted \$1,765,338 of use of reserves in the current year and used \$56,552 from the employee benefit accrued liability, and \$1,708,786 of the 2015 capital reserve to transfer to the capital projects fund. This budgeted use of the reserves resulted in no net effect to unassigned fund balance.

Interest allocated to the reserves in the amount of \$96,004 related to the workers' compensation reserve in the amount of \$2,391, the unemployment reserve in the amount of \$186, the retirement contribution reserve in the amount of \$61,391, the insurance reserve in the amount of \$559, the repair reserve in the amount of \$2, the employee benefit accrued liability reserve in the amount of \$13,584, and the capital reserve in the amount of \$17,891.

The District had a Board approved, budget revision to appropriate \$54,316 of fund balance for an emergency purchase of a bus.

The change in non-spendable in the amount of \$6,649 is due to expenditures being prepaid at the end of the fiscal year for health insurance.

The assigned, appropriated fund balance of \$1,300,000 is the amount the District has chosen to partially fund its operating budget for 2019-2020.

The closing unassigned fund balance represents the fund balance retained by the District that is not restricted or assigned for subsequent year's taxes. This amount is limited to 4.00% of the 2019-2020 budget, and represents 4.00%.

The District had capital asset additions of \$8,387,375, recorded depreciation expense of \$2,419,732, and had a loss on disposal of \$175. See Note 9 for additional information.

B) Long-Term Debt

At June 30, 2019, the District had total bonds payable of \$9,250,000 and an energy performance contract of \$1,288,600. The bonds were issued for district-wide projects, and the energy performance contract was issued for energy savings costs. The decrease in bonds payable and energy performance contract payable represents principal payments. See Note 13 for further information. A summary of outstanding debt at June 30, 2019 and 2018 is as follows:

	2019	2018	Increase (Decrease)
Bonds payable	\$9,250,000	\$11,785,000	(\$2,535,000)

7. FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared, the District was aware of the following circumstances that could significantly affect its financial health in the future:

- A) The NYS Legislature approved a property tax cap beginning in the 2012-2013 school year. This legislation limits tax levy growth to the lesser of two percent or the annual increase in the CPI. Limited exemptions to exceed the levy cap are provided for taxes needed to pay for voter-approved capital expenditures, pension rate increases, court orders, and torts over five percent of the prior year's levy. If the tax levy proposed to the voters is within the school district's tax levy cap, then a majority vote would be required for approval. If the proposed tax levy exceeds the district's tax levy cap, the threshold required for approval would be 60 percent of the vote. A school district that does not levy an amount up to the cap in any one year would be allowed to carry over unused tax levy capacity into future years.
- B) The District has been able to maintain programs through the use of fund balance and conservative budgetary practices. However, as costs continue to escalate, and with a tax cap in place, these practices can only sustain the District for a period of time.
- C) Increases in employee benefits, including but not limited to health insurance, continue to be major budgetary considerations. The premium increase for health insurance for the past few years has exceeded the tax levy growth factor.
- D) New mandates from the New York State Education Department, and the cost of implementation and compliance, continue to strain an already difficult situation. Although mandate relief is continuously mentioned as an immediate means to reduce such costs, and taxes, no substantive action has been implemented at the state level.

RECONCILIATION OF GOVERNMENTAL FUNDS
BALANCE SHEET TO STATEMENT OF NET POSITION
JUNE 30, 2019**

Total Governmental Fund Balances \$15,833,516

Amounts reported for governmental activities in the Statement of Net Position are different because:

The cost of building and acquiring capital assets (land, buildings, equipment) financed from the governmental funds are reported as expenditures in the year they are incurred, and the assets do not appear on the balance sheet. However, the Statement of Net Position include those capital assets among the assets of the district as a whole, and their original costs are expensed annually over their useful lives.

Original cost of capital assets	\$101,366,032	
Accumulated depreciation	<u>(50,856,568)</u>	50,509,464

Deferred inflows of resources - PILOT - The Statement of Net Position recognizes revenues received under the full accrual method. Governmental funds recognize revenue under the modified accrual. 265,353

Defeasance gain - gain on defeasance on the advance refunding. The Statement of Net Position will amortize the gain on defeasance on the advance refunding over the life of the bond. Governmental funds recorded the gain on defeasance on the advance refunding as a revenue in the year of issue. (68,172)

Governmental funds recognize revenue and expenditures incurred under the modified accrual method. The Statement of Net Position recognizes revenues received and expenditures incurred under the full accrual method. Deferred inflows and outflows related to pensions and other post-employment benefits that will be recognized in future periods amounted to:

Deferred outflows of resources-pensions	\$32,437,238	
Deferred outflows of resources-other post-employment benefits	15,506,437	
Deferred inflows of resources-pensions	<u>(8,422,574)</u>	39,521,101

Certain disbursements previously expended in the governmental funds relating to pensions are treated as long term assets and increase net position. Net pension asset - teachers' retirement system, proportionate share at year end amounted to: 5,721,685

Payables that are associated with long-term liabilities and short-term debt that are not payable in the current period are not reported as liabilities in the funds. Additional payables relating to long-term liabilities and short-term debt at year end consisted of:

Accrued interest on debt		(284,678)
--------------------------	--	-----------

Long-term liabilities are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year-end consisted of:

Bonds payable	(\$9,250,000)	
Energy performance contract	(1,288,600)	
Compensated absences payable	(7,356,462)	
Claims payable	(1,693,052)

RECONCILIATION OF GOVERNMENTAL FUND REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2019

Net Change in Fund Balances (\$4,141,877)

Amounts reported for governmental activities in the Statement of Activities are different because:

Long-Term Revenue and Expense Differences

In the Statement of Activities, compensated absences are measured by the amounts earned or incurred during the year. In the governmental funds, expenditures for these items are measured by the amount of financial resources used. Compensated absences payable for the year ended June 30, 2019 increased by (536,632)

Deferred inflows of resources - The Statement of Net Position recognized revenues received under the full accrual method. Governmental funds recognize revenue under the modified accrual method. The difference in the revenues recognized under the full accrual method for the year ended June 30, 2019 was (27,085)

Claims payable in the Statement of Activities differs from the amounts reported in the governmental funds because the expense is recorded as an expenditure in the funds when it is due. In the Statement of Activities, the payable is recognized as it accrues regardless of when it is due. Claims payable for the year ended June 30, 2019 increased by (699,812)

Changes in the proportionate share of net pension asset/liability, and total other post-employment benefits obligation and related deferred inflows and outflows reported in the Statement of Activities do not provide for or require use of current financial resources and therefore are not reported as revenues or expenditures in the governmental funds.

Teachers' retirement system	\$1,109,822	
Employees' retirement system	(164,270)	
Other post-employment benefits obligation	<u>(12,575,061)</u>	(11,629,509)

Capital Related Differences

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities, those costs are capitalized and shown in the Statement of Net Position and allocated over their useful lives as annual depreciation expense in the Statement of Activities.

Capital outlays	\$8,387,375	
Loss on disposal	(175)	
Depreciation expense	<u>(2,419,732)</u>	5,967,468

Long-Term Debt Differences

Repayment of bond and energy performance principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Position and does not affect the Statement of Activities. 2,825,855

Interest on debt in the Statement of Activities differs from the amounts reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and this requires the use of current financial resources. In the Statement of Activities, interest expense is recognized as the interest accrues regardless of when it is due. Accrued interest from June 30, 2018 to June 30, 2019 changed by (191,892)

Governmental funds report the premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. The net amount of amortization is 34,085

NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

NOTE 1 – SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES:

The financial statements of Herricks Union Free School District (the “District”) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. Those principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Certain significant accounting principles and policies utilized by the District are described below:

A) Reporting entity:

The District is governed by the laws of New York State. The District is an independent entity governed by an elected Board of Education consisting of five (5) members. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the District. Board members have authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The reporting entity of the District is based upon criteria set forth by GASB Statement No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units* and GASB Statement No. 61, *The Financial Reporting Entity: Omnibus-An Amendment of GASB Statements No. 14 and No. 34*. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the District and its component unit and other organizational entities determined to be includable in the District’s financial reporting entity. The District is not a component unit of another reporting entity. The decision to include a potential component unit in the District’s reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief description of a certain entity included in the District’s reporting entity.

Extraclassroom Activity Funds

The Extraclassroom Activity Funds of the District represent funds of the students of the District. The Board of Education exercises general oversight of these funds. The Extraclassroom Activity Funds are independent of the District with respect to its financial transactions and the designation of student management. Separate audited financial statements (cash basis) of the Extraclassroom Activity Funds can be found at the District’s business office. The District reports these assets held by its agent for the Extraclassroom organizations in the Statement of Fiduciary Net Position – Fiduciary Fund.

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

B) Joint venture:

The District is a component district in the Nassau Board of Cooperative Educational Services (BOCES). A BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs, which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under §1950 of the New York State Education Law. A BOCES Board is considered a corporate body. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES property is held by the BOCES Board as a corporation (§1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the New York State General Municipal Law.

A BOCES' budget is comprised of separate budgets for administrative, program, and capital costs. Each component district's share of administrative and capital cost is determined by resident public school district enrollment, as defined in the New York State Education Law, §1950(4)(b)(7). In addition, component districts pay tuition or a service fee for programs in which its students participate.

C) Basis of presentation:

i) District-Wide Financial Statements:

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, state aid, intergovernmental revenues, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants, if applicable.

The Statement of Activities presents a comparison between program expenses and revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses, principally employee benefits, are allocated to functional areas in proportion to the payroll expended for those areas. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

ii) Fund Financial Statements:

The Fund Financial Statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The District reports the following major governmental funds:

General Fund: This fund is the District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

Special Aid Fund: This fund accounts for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for specified purposes. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties.

School Lunch Fund: This fund is used to account for the activities of the District's food service operations.

Debt Service Fund: This fund accounts for the accumulation of resources and the payment of principal and interest on long-term general obligation debt of governmental activities.

Capital Projects Fund: This fund is used to account for the financial resources used for acquisition, construction, or major repair of capital facilities.

The District reports the following fiduciary funds:

Fiduciary Fund: These funds are used to account for activities in which the District acts as trustee or agent for resources that belong to others. These activities are not included in the District-Wide Financial Statements, because their resources do not belong to the District, and are not available to be used. The District has the following fiduciary funds:

Agency funds: These funds are strictly custodial in nature and do not involve the measurement of results of operations. Assets are held by the District as agent for various student groups or extraclassroom activity funds and for payroll or employee withholding.

Private purpose trust funds: These funds are used to account for trust arrangements in which principal and income benefits annual third party awards and scholarships for students. Established criteria govern the use of the funds and members of the District or representatives of the donors may serve on committees to determine who benefits.

FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

D) Measurement focus and basis of accounting:

The District-Wide and Fiduciary Fund Financial Statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The Fund Financial Statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 180 days after the end of the fiscal year, except for real property taxes, which are considered to be available if they are collected within 60 days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, compensated absences, net pension liabilities, and other post-employment benefit obligations which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

E) Real property taxes:

i) Calendar:

Real property taxes are levied annually by the Board of Education no later than August 15th, and are payable on October 1 and April 1. Taxes are collected by the Town of North Hempstead during the period 2018-2019.

ii) Enforcement:

Uncollected real property taxes are subsequently enforced by Nassau County (the "County") in which the District is located. The County pays an amount representing uncollected real property taxes transmitted to the County for enforcement to the District no later than the following July 1.

F) Restricted resources:

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these Notes.

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

G) Interfund transactions:

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfer of expenditures and revenues to provide financing or other services.

In the District-Wide Financial Statements, the amounts reported on the Statement of Net Position for interfund receivables and payables represent amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for all interfund receivables and payables between the funds, with the exception of those due from or to the fiduciary funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables may be netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

Refer to Note 11 for a detailed disclosure by individual fund for interfund receivables, payables, expenditures, and revenues activity.

H) Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of compensated absences, workers' compensation claims payable, net pension asset/liability, other post-employment benefits, potential contingent liabilities, and useful lives of capital assets.

I) Cash and investments:

The District's cash and investments consist of cash on hand and demand deposits.

Certain cash balances are restricted by various legal and contractual obligations, such as legal reserves and debt agreements.

J) Receivables:

Receivables are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

K) Inventories and prepaid items:

Inventories of food in the school lunch fund are recorded at cost on a first-in, first-out basis, or in the case of surplus food, at stated value, which approximates market. Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

A reserve for these non-liquid assets (inventories) has been recognized in the school lunch fund as non-spendable under GASB Statement No. 54 to signify that a portion of fund balance is not available for other subsequent expenditures.

Prepaid items represent payments made by the District for which benefits extend beyond year-end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the District-Wide and Fund Financial Statements. These items are reported as assets on the Statement of Net Position or Balance Sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed.

Prepaid items as of June 30, 2019 consisted of health insurance premiums in the general fund and school lunch fund.

L) Capital assets:

Capital assets are reflected in the District-Wide Financial Statements. Capital assets are reported at actual cost, when the information is available, or estimated historical cost based on professional independent third-party information. Donated assets are reported at acquisition value at the time received.

Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the District-Wide Financial Statements are as follows:

	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Building & Building Improvements	\$15,000	Straight-line	50 years
Furniture & Equipment	\$5,000	Straight-line	5-20 years
Land Improvements	\$15,000	Straight-line	20 years
Vehicles	\$5,000	Straight-line	8 years

M) Collections in advance:

Collections in advance arise when the District receives resources before it has legal claim to them, as when grant monies are received prior to the incidence of qualifying expenditures. In subsequent periods, when both recognition criteria are met, or when the District has legal claim to the resources, the liability for collections in advance is removed and revenues are recorded.

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

Collections in advance consist of amounts received in advance for summer programs in the general fund; for amounts received in advance for grants in the special aid fund; and for amounts received in advance for meals that have not yet been purchased in the school lunch fund.

N) Deferred outflows and inflows of resources:

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two items that qualify for reporting in this category. These amounts are related to pensions and other post-employment benefits reported in the District-Wide Statement of Net Position, and are detailed further in Notes 15 and 17.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. These amounts are related to the defeasance gain on a bond refunding and pensions reported in the District-Wide Statement of Net Position, and are detailed further in Notes 14 and 15.

In addition to liabilities, the Governmental Funds Balance Sheet will sometimes report deferred inflow of resources when potential revenues do not meet the availability criterion for recognition in the current period. These amounts are recorded as deferred inflows of resources. In subsequent periods, when the availability criterion is met, deferred inflows of resources are classified as revenues. The District-Wide Financial Statements, however, report these deferred inflows of resources as revenues in accordance with the accrual basis of accounting and economic resources measurement focus.

O) Vested employee benefits:

Compensated absences:

Compensated absences consist of unpaid accumulated annual sick leave, vacation, and sabbatical time.

Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, resignation or death, employees may contractually receive a payment based on unused accumulated sick leave. Certain collective bargained agreements require these compensated absences to be paid in the form of non-elective contributions to the employee's 403(b) plan.

District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

Consistent with GASB Statement No.16, *Accounting for Compensated Absences*, the liability has been calculated using the vesting termination method and an accrual for that liability is included in the District-Wide Financial Statements. The compensated absences liability is calculated based on the pay rates in effect at year-end.

In the Fund Financial Statements only the amount of matured liabilities is accrued within the general fund based upon expendable and available financial resources. These amounts are expensed on a pay-as-you go basis.

P) Other benefits:

District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System.

District employees may choose to participate in the District's elective deferred compensation plans established under Internal Revenue Code Sections 403(b) and 457.

In addition to providing pension benefits, the District provides post-employment health insurance coverage and survivor benefits for retired employees and their survivors in accordance with the provision of various employment contracts in effect at the time of retirement. Substantially all of the District's employees may become eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as an expenditure as the liability for premiums mature (come due for payments). In the District-Wide Financials Statements, the cost of post-employment health insurance coverage is recognized on the accrual basis of accounting in accordance with GASB Statement No. 75.

Q) Short-term debt:

The District may issue Revenue Anticipation Notes (RAN) and Tax Anticipation Notes (TAN), in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RANs and TANs represent a liability that will be extinguished by the use of expendable, available resources of the fund.

The District may issue budget notes up to an amount not to exceed 5% of the amount of the annual budget during any fiscal year for expenditures for which there is an insufficient or no provision made in the annual budget. The budget note must be repaid no later than the close of second fiscal year succeeding the year in which the note was issued.

The District may issue Bond Anticipation Notes (BAN), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BANs issued for capital purposes be converted to long-term financing within five years

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

after the original issue dated. See Note 12 for details on short-term debt issued or redeemed during the fiscal year.

R) Accrued liabilities and long-term obligations:

Payables, accrued liabilities, and long-term obligations are reported in the District-Wide Financial Statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments, net pension liability, total other post-employment benefits obligation, and compensated absences that will be paid from governmental funds, are reported as a liability in the Fund Financial Statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the Fund Financial Statements when due.

Long-term obligations represent the District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

S) Equity classifications:

i) District-Wide Financial Statements:

In the District-Wide Financial Statements there are three classes of net position:

Net investment in capital assets – consists of net position (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, constructions, or improvements of those assets, net of any unexpended proceeds and including any unamortized items (discounts, premiums, gain on refunding).

Restricted net position – reports net position when constraints placed on the assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – reports the balance of net position that does not meet the definition of the above two classifications and is deemed to be available for general use by the District.

ii) Fund Financial Statements:

There are five classifications of fund balance as detailed below; however, in the Fund Financial Statements there are four classifications of fund balance presented:

- (1) **Non-spendable** fund balance – Includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Non-spendable fund balance includes the inventory in the amount of \$20,945 and prepaid expenditures in the amount of \$5,358 in the school

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

lunch fund. Non-spendable fund balance also includes the prepaid expenditures recorded in the general fund of \$983,288 for health insurance.

- (2) **Restricted** fund balance – Includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

Workers' Compensation Reserve

Workers' compensation reserve (GML §6-j), is used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action, and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. This reserve is accounted for in the general fund under restricted fund balance.

Unemployment Insurance Reserve

Unemployment insurance reserve (GML §6-m), must be used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve fund. This reserve is accounted for in the general fund under restricted fund balance.

Retirement Contribution Reserve

Retirement Contribution Reserve (GML §6-r), must be used for financing retirement contributions to the New York State and Local Employees' Retirement System. In addition, a subfund of this reserve may also be created to allow for financing retirement contributions to the New York State Teachers' Retirement System. The reserve must be accounted for separate and apart from all other funds, and a detailed report of the operation and condition of the fund must be provided to the Board. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. The Teachers' Retirement System subfund is subject to contribution limits. This reserve is accounted for in the general fund under restricted fund balance.

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

Insurance Reserve

Insurance reserve (GML §6-m) must be used to pay liability, casualty, and other types of losses, except losses incurred for which the following types of insurance may be purchased: life, accident, health, annuities, fidelity and surety, credit, title residual value, and mortgage guarantee. In addition, this reserve may not be used for any purpose for which a special reserve may be established pursuant to law (for example, for unemployment compensation insurance). The reserve may be established by Board action, and funded by budgetary appropriations, or such other funds as may be legally appropriated. There is no limit on the amount that may be accumulated in the insurance reserve, however, the annual contribution to this reserve may not exceed the greater of \$33,000 or 5% of the budget. Settled or compromised claims up to \$25,000 may be paid from the reserve without judicial approval. The reserve is accounted for in the general fund under restricted fund balance.

Repair Reserve

Repair reserve (GML §6-d) must be used to pay the cost of repairs to capital improvements or equipment, for which repairs are of a type not recurring annually. The Board of Education without voter approval may establish a repair reserve fund by a majority vote of its members. Voter approval is required to fund this reserve (Opinion of the New York State Comptroller 81-401). Expenditures from this reserve may be made only after a public hearing has been held, except in emergency situations. If no hearing is held, the amount expended must be repaid to the reserve fund over the next two subsequent fiscal years. This reserve is accounted for in the general fund under restricted fund balance.

Employee Benefit Accrued Liability Reserve

Employee benefit accrued liability reserve (GML§6-p), must be used for the payment of accrued employee benefit due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. This reserve is accounted for in the general fund under restricted fund balance.

Debt Service

Debt service is used to account for the accumulation of resources that are restricted to pay debt service. The fund includes all unused debt proceeds and interest and earnings on temporary investment of debt proceeds. This reserve is accounted for in the debt service fund.

Capital Reserve

Capital reserve (GML §3651), is used to pay the costs of capital improvements for which the school district may issue bonds pursuant to Local Finance Law. A proposition indicating the purpose, ultimate amount, probable term, and funding

source must be approved by the voters. Voter approval is also required before any funds may be expended for the specific purpose for which the reserve was established. Funds may be transferred with voter approval to other funds or the fund may be liquidated if the original purpose for which the fund was established is determined to be no longer needed. Upon liquidation, proceeds must first be applied to any outstanding bonded indebtedness with the remaining, if any, used to reduce the annual tax level. This reserve is accounted for in the general fund as restricted fund balance.

Restricted for capital in the capital projects fund includes the fund balance for projects that are funded by the capital reserve.

Unspent Bond Proceeds

Unspent, long-term bond proceeds are recorded as restricted fund balance because they are subject to external constraints contained in the debt agreement. These restricted funds are accounted for in the capital projects fund.

Scholarships

Amounts restricted for scholarships are used to account for monies donated for scholarship purposes, net of earnings and awards. These restricted funds are accounted for in the private purpose trust fund.

- (3) **Committed** fund balance – Includes amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the District’s highest level of decision making authority (i.e., Board of Education). The District has no committed fund balances as of June 30, 2019.
- (4) **Assigned** fund balance – Includes amounts that are constrained by the District’s intent to be used for specific purposes, but are neither restricted nor committed. This intent can be expressed by the Board or through the Board delegating this responsibility to the District management through Board policies. This classification also includes the remaining positive fund balance for all governmental funds except for the general fund.
- (5) **Unassigned** fund balance –Includes the residual fund balance for the general fund and includes residual fund balance deficits of any other governmental fund that cannot be eliminated by offsetting of assigned fund balance amounts. Assignments of fund balance cannot cause a negative unassigned fund balance.

NYS Real Property Tax Law §1318 limits the amount of unexpended surplus funds a District can retain to no more than 4% of the District’s budget for the general fund for the ensuing fiscal year. Nonspendable and restricted fund balance of the general fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances included in assigned fund balance are also excluded from the 4% limitation.

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

Deficit Fund Balance

The school lunch fund had a deficit unassigned fund balance of \$130,968 as a result of operating deficits in prior years. The capital projects fund had a deficit fund unassigned balance of \$8,671,013. This will be eliminated once permanent financing is issued.

Order of Use of Fund Balance

In circumstances where an expenditure is incurred for a purpose for which amounts are available in multiple fund balance classifications (e.g., expenditures related to reserves) the expenditure is to be spent first from the restricted fund balance to the extent appropriated by either budget vote or board approved budget revision and then from the unrestricted fund balances. Expenditures incurred in the unrestricted fund balances shall be applied first to the assigned fund balance to the extent that there is an assignment and then to the unassigned fund balance.

T) Future changes in accounting standards:

GASB has issued Statement No. 84, *Fiduciary Activities*, effective for the fiscal year ended June 30, 2020. It provides guidance for identifying fiduciary activities, primarily based on whether the government is controlling the assets, and the beneficiaries with whom the fiduciary relationship exists, and on how different fiduciary activities should be reported.

GASB has issued Statement No. 87, *Leases*, effective for fiscal year ended June 30, 2021. This Statement establishes a single model for lease accounting based on the idea that leases are financings of the right-to-use an underlying asset. As such, under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and the lessor is required to recognize a lease receivable and a deferred inflow of resources.

These are the statements that the District feels may have an impact on these financial statements and are not an all-inclusive list of GASB statements issued. The District will evaluate the impact each of these pronouncements may have on its financial statements and will implement them as applicable and when material.

NOTE 2 – EXPLANATION OF CERTAIN DIFFERENCES BETWEEN FUND FINANCIAL STATEMENTS AND DISTRICT-WIDE FINANCIAL STATEMENTS:

Due to the differences in the measurement focus and basis of accounting used in the Fund Financial Statements and the District-Wide Financial Statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic focus of the Statement of Activities, compared with the current financial resources focus of the governmental funds.

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

A) Total fund balances of governmental funds vs. net position of governmental activities:

Total fund balances of the District's governmental funds differ from "net position" of governmental activities reported in the Statement of Net Position. The difference primarily results from additional long-term economic focus of the Statement of Net Position versus the solely current financial resources focus of the governmental fund Balance Sheets.

B) Statement of Revenues, Expenditures, and Changes in Fund Balances vs. Statement of Activities:

Differences between the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the Statement of Activities fall into one of three broad categories. The amounts shown below represent:

i) Long-term revenue and expense differences:

Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the Statement of Activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accruals basis, whereas the accrual basis of accounting is used on the Statement of Activities.

ii) Capital related differences:

Capital related differences include the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets reported on the Statement of Activities, and the difference between recording an expenditure for the purchase of capital items in the fund statements and depreciation expense on those items as recorded in the Statement of Activities.

iii) Long-term debt differences:

Long-term debt differences occur because both interest and principal payments are recorded as expenditures in the fund statements, whereas interest payments are recorded in the Statement of Activities as incurred, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position.

NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY:

A) Budgets:

The District administration prepares a proposed budget for approval by the Board of Education for the following governmental funds for which legal (appropriated) budgets are adopted. The voters of the District approved the proposed appropriation budget for the general fund. Appropriations are adopted at the program line item level.

Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances), which may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year are

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

increased by the planned use of specific reserves, and budget amendments approved by the Board of Education as a result of selected new revenue sources not included in the original budget (when permitted by law). These supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted.

Supplemental appropriations that occurred during the year are shown on Supplemental Schedule #5.

Budgets are adopted annually on a basis consistent with GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year.

Budgets are established and used for individual capital project funds expenditures as approved by a special referendum of the District's voters. The maximum project amount authorized is based primarily upon the cost of the project, plus any requirements for external borrowings, not annual appropriations. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

B) Encumbrances:

Encumbrance accounting is used for budget control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts, and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year-end are presented as reservations of fund balance and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred or the commitment is paid.

NOTE 4 – DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS:

A) Cash:

New York State law governs the District's investment policies. Resources must be deposited in FDIC-insured commercial banks or trust companies located within the state. Permissible investments include obligations of the United States Treasury, United States agencies, repurchase agreements, and obligations of New York State or its localities. Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the state and its municipalities and districts.

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. GASB directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are as follows:

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

- A) Uncollateralized;
- B) Collateralized with securities held by the pledging financial institution in the District's name; or
- C) Collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

All of the District's aggregate bank balances, were covered by depository insurance or collateralized with securities held by pledging financial institution in the District's name at year end.

B) Restricted cash:

Restricted cash represents cash and cash equivalents where use is limited by legal requirements. These assets represent amounts required by statute to be reserved for various purposes. Restricted cash at June 30, 2019 included \$15,119,611 within in the governmental funds for debt service, capital projects, and general reserve purposes and \$3,394,683 within the fiduciary funds.

C) Investments:

The District does not typically purchase investments for long enough duration to cause it to believe that it is exposed to any material interest rate risk. The District also does not typically purchase investments denominated in a foreign currency, and is not exposed to foreign currency risk.

NOTE 5 – PARTICIPATION IN BOCES:

During the year ended June 30, 2019, the District was billed \$4,074,007 for BOCES administrative and program costs. The District's share of BOCES aid amounted to \$1,125,961. Financial statements for the BOCES are available from the BOCES administrative office at Nassau Board of Cooperative Educational Services, 71 Clinton Road, P.O. Box 9195, Garden City, NY 11530-9195.

general fund to the school lunch fund to assist in subsidizing the school lunch program and eliminate negative student account balances. The District also transferred from the general fund to the capital projects fund to finance capital construction projects.

The District typically loans resources between funds for the purpose of mitigating the effects of transient cash flow issues.

All inter-fund payables are expected to be repaid within one year.

NOTE 12 - SHORT-TERM DEBT:

Transactions in short-term debt for the year are summarized below:

	<u>Maturity</u>	<u>Interest Rate</u>	<u>Beginning Balance</u>	<u>Issued</u>	<u>Redeemed</u>	<u>Ending Balance</u>

C) Long-term interest

Interest on long-term debt for the year was composed of:

	Total
Interest paid	\$357,663
Less interest accrued in the prior year	(65,686)
Plus interest accrued in the current year	55,851
Less amortization of gain on defeasance	(34,085)
Total expense	\$313,743

NOTE 14 – DEFERRED INFLOWS OF RESOURCES – GAIN ON DEFEASANCE:

The gain on defeasance pertaining to the 2014 bond refunding as recorded in the District-Wide Financial Statements as deferred inflows of resources at June 30, 2019 consisted of the following:

Bond premium	\$459,627
Deferred amounts on refunding	(217,009)
	242,618
Amortization to date	(174,446)
Total gain on defeasance, net of amortization	\$68,172

The gain on defeasance on the advanced refunding is being amortized on the District-Wide Financial Statements using the straight-line method over 7 years, the time to maturity of the refunded bonds, at the point of refunding. Amortization of the defeasance gain recorded on the District- Wide financials amounted to \$34,085 for the fiscal year ending June 30, 2019, leaving a balance at June 30, 2019 of \$68,172.

NOTE 15 – PENSION PLANS:

i) Teachers' Retirement System

The District participates in the New York State Teachers' Retirement System (TRS) (the System). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. The System is governed by a 10 member Board of Trustees. System benefits are established under New York State Law. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors, and administrators employed in New York Public Schools and BOCES who elected to participate in TRS. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by

enactment of a State statute. Additional information regarding the System may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany NY 12211-2395 or by referring to the NYSSTR Comprehensive Annual Financial report which can be found on the System's website at www.nystrs.org.

ii) Employees' Retirement System

The District participates in the New York State and Local Employees' Retirement System (ERS) (the System). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all new assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. System benefits are established under the provisions of the New York State Retirement and Social Security Law (RSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP) which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at www.osc.state.ny.us/retire/publications/index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany NY 12244.

A) Funding Policies:

The Systems are noncontributory, except as follows:

1. New York State Teachers' Retirement System:
 - a. Employees who joined the system after July 27, 1976
 - i. Employees contribute 3% of their salary, except that employees in the system more than ten years are no longer required to contribute.
 - b. Employees who joined the system on or after January 1, 2010 before April 1, 2012
 - i. Employees contribute 3.5% of their salary throughout active membership.
 - c. Employees who joined the system on or after April 1, 2012
 - i. Employees contribute between 3% and 6% dependent upon their salary throughout active membership.
2. New York State Employees' Retirement System

- c. Employees who joined the system on or after April 1, 2012
 - i. Employees contribute between 3% and 6% dependent upon their salary throughout active membership.

For ERS, the Comptroller annually certifies the rates expressed as proportions of members' payroll annually, which are used in computing the contributions required to be made by employers to the pension accumulation fund, for the ERS' fiscal year ended March 31st. The District's average contribution rate for ERS' fiscal year ended March 31, 2019 was 12.8% of covered payroll.

Pursuant to Article 11 of the Education Law, the New York State Teachers' Retirement Board establishes rates annually for TRS. The District's contribution rate for the TRS' fiscal year ended June 30, 2019 was 10.62% of covered payroll.

The District contributions made to the Systems were equal to 100% of the contributions required for each year. The required contributions for the current year and two preceding years based on covered payroll for the District's year end were:

	NYSERS	NYSTRS
2019	\$ 1,735,864	\$ 5,581,280
2018	\$ 1,766,134	\$ 5,051,024
2017	\$ 1,783,149	\$ 5,940,971

B) Pension Assets, Liabilities, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions:

At June 30, 2019, the District reported the following asset/(liability) for its proportionate share of the net pension asset/(liability) for each of the Systems. The net pension asset/(liability) was measured as of March 31, 2019 for ERS and June 30, 2018 for TRS. The total pension asset/(liability) used to calculate the net pension asset/(liability) was determined by an actuarial valuation. The District's proportion of the net pension asset/(liability) was based on a projection of the District's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the ERS and TRS Systems in reports provided to the District.

Actuarial Assumptions

The total pension liability as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

	<u>ERS</u>	<u>TRS</u>
Measurement date	March 31, 2019	June 30, 2018
Actuarial valuation date	April 1, 2018	June 30, 2017
Interest rate	7.0%	7.25%
Salary scale	4.20%	4.72% - 1.90%
Cost of living adjustments	1.3% annually	1.5%, annually
Decrement tables	April 1, 2010 - March 31, 2015	July 1, 2009 - June 30, 2014
	System's Experience	System's Experience
Inflation rate	2.50%	2.25%

For ERS, annuitant mortality rates are based on April 1, 2010 – March 31, 2015 System's experience with adjustments for mortality improvements based on MP-2014. For TRS, annuitant mortality rates are based on plan member experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2014, applied on a generational basis.

For ERS, the actuarial assumptions used in the April 1, 2018 valuation are based on the results of an actuarial experience study for the period April 1, 2010 – March 31, 2015. For TRS, the actuarial assumptions used in the June 30, 2017 valuation are based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

The long term rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, *Selections of Economic Assumptions for Measuring Pension Obligations*. ASOP No. 27 provides guidance on the selection of

an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of investment expense and inflation) for each major asset class, as well as historical investment data and plan performance. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation as of the valuation date are summarized below:

	100%		100%	

The expected real rate of return is net of the long-term inflation assumptions of 2.5% for ERS, and 2.3% for TRS.

Discount Rate

The discount rate used to calculate the total pension liability was 7.0% for ERS and 7.25% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Payables to the Pension Plan

For ERS, employer contributions are paid annually based on the System's fiscal year which ends on March 31. Accrued retirement contributions as of June 30, 2019 represent the projected employer contribution for the period of April 1, 2019 through June 30, 2019 based on paid ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2019 amounted to \$417,883.

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

For TRS, employer and employee contributions for the fiscal year ended June 30, 2019 are paid to the System in September, October, and November 2019 through a state aid intercept, with a balance to be paid by the District, if necessary. Accrued retirement contributions as of June 30, 2019 represent employee and employer contributions for the fiscal year ended June 30, 2019 based on paid TRS wages multiplied by the employer's contribution rate and employee contributions for the fiscal year as reported to the TRS System. Accrued retirement contributions as of June 30, 2019 amounted to \$5,968,979.

NOTE 16 – PENSION PLANS – OTHER:

A) Tax Sheltered Annuities:

The District has adopted a 403(b) plan covering all eligible employees. Employees may defer up to 100% of their compensation subject to Internal Revenue Code elective deferral limitations. The District may also make non-elective contributions of certain termination payments based on collectively bargained agreements. Contributions expensed by the District and withheld by the employees for the fiscal year ended June 30, 2019, totaled \$66,552 and \$3,474,484 respectively.

B) Deferred Compensation Plan:

The District has established a deferred compensation plan in accordance with Internal Revenue Code section 457 for all employees. The District makes no contributions into this plan. The amount deferred by eligible employees for the fiscal year ended June 30, 2019 totaled \$149,116.

NOTE 17 – POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB):

A) General Information about the OPEB Plan:

Plan Description

The District's OPEB Plan (the "Plan"), defined as a single employer defined benefit plan, primarily provides post-employment health insurance coverage to retired employees and their eligible dependents in accordance with the provisions of various employment contracts. Benefits are provided through the New York State Health Insurance Program (NYSHIP), Empire Plan. Article 37 of the Statutes of the State assigns the authority to establish and amend benefit provisions to the District. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Benefits Provided

The Plan provides medical and Medicare Part B benefits for retired employees and their eligible dependents. Benefit terms provide for the District to contribute between 50% and 100% of premiums for retirees and between 35% and 100% for family coverage depending on the coverage selected, date of retirement, and bargaining unit. Upon death of a retiree,

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

the District will only continue the Medicare Part B reimbursement for the surviving spouse or surviving dependent. The District recognizes the cost of the Plan annually as expenditures in the fund financial statements as payments are accrued. For fiscal year 2019, the District contributed an estimated \$4,878,401 to the Plan, including \$4,878,401 for current premiums and \$0 to prefund benefits. Currently, there is no provision in the law to permit the District to fund OPEB by any other means than the “pay as you go” method.

Employees Covered by Benefit Terms

At the valuation date of July 1, 2017, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	473
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	619
	1,092

B) Total OPEB Liability:

The District’s total OPEB liability of \$218,775,351 was measured as of June 30, 2019, and was determined by an actuarial valuation as of July 1, 2017, with update procedures used to roll forward the OPEB liability to the measurement date.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the July 1, 2017 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Salary increases	2.50%	
Discount rate	3.10%	
Healthcare cost trend rates	8.00% for January 1, 2019, decreasing each year to an ultimate rate of 5.00% for 2025, and later years	

The discount rate was based on the 20 year AA Municipal GO Bond Rate Index, as of June 30, 2019 per *Fidelity Investments*.

Mortality rates were based on the SOA RP-2014 Total Dataset. Mortality improvements are projected to the valuation date with SOA Scale MP-2014.

NOTE 18 - TAX ABATEMENTS:

The District received Payment in Lieu of Tax (PILOT) payments from the County related to the Long Island Power Authority. These PILOTs are not considered tax abatements as the purpose of this agreement was not to abate taxes.

NOTE 19 – RISK MANAGEMENT:

A) General:

The District is exposed to various risks of loss related to torts, theft, damage, injuries, errors and omissions, natural disasters, and other risks. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years.

**HERRICKS UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

B) Risk Retention:

The District has established a self-insured plan for risks associated with workers' compensation claims. Liabilities of the plan are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for incurred claims and incurred by not recorded (IBNR) based on a liability evaluation performed in February of 2018. As of February 21, 2018, the District has recorded a workers' compensation claims payable for \$1,693,052 (undiscounted). This represents the District's liability for unpaid reported claims and claims which were incurred but not reported prior to the evaluation date. The District has a workers' compensation reserve balance of \$1,762,292. Claims activity for the current and preceding year is summarized below.

	2019	2018
Unpaid claims, beginning of year	\$1,693,052	\$1,021,257
Incurred claims and claim adjustment expenses	699,812	986,267
Claim payments	(699,812)	(314,472)
Unpaid claims, end of year	\$1,693,052	\$1,693,052

The District has chosen to establish a self-funded dental benefit program for its employees. The benefit programs administrator, J.J Stanis and Company, Inc., is responsible for the approval, processing and payment of claims, after which they bill the District for reimbursement. The District is also responsible for a monthly administrative fee. The benefit program reports on a fiscal year ending June 30, 2019. The program is accounted for in the trust and agency fund of the District.

C) Public Entity Risk Pool:

The District participates in New York Schools Insurance Reciprocal (NYSIR), a non-risk-retained public entity risk pool for its District property and liability insurance coverage. The pool is operated for the benefit of individual governmental units located within the pool's geographic area, and is considered a self-sustaining risk pool that will provide coverage for its members. The pool obtains independent coverage for insured events and the District has essentially transferred all related risk to the pool.

NOTE 20- COMMITMENTS AND CONTINGENCIES:

A) Encumbrances:

All encumbrances are classified as assigned or restricted fund balance. At June 30, 2019, the District encumbered the following amounts:

B) Grants:

The District has received grants, which are subject to audit by agencies of the state and federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the District's administration believes disallowances, if any, will be immaterial.

C) Litigation:

As of June 30, 2019 we are unaware of any pending or threatened litigation or unasserted claims or assessments against the District which require disclosure.

D) Operating Leases:

The District is committed under various non-cancelable operating leases, primarily for copiers (principally in the general fund). Expenditures were \$56,009 for the fiscal year ended June 30, 2019. The following is a summary of obligations of government activities under operating lease payments:

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Education
Herricks Union Free School District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the fiduciary funds of the Herricks Union Free School District, as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Herricks Union Free School District's basic financial statements, and have issued our report thereon dated October 11, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Herricks Union Free School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Herricks Union Free School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Herricks Union Free School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

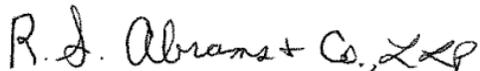

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Herricks Union Free School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
