Assigned Fund Balance - Appropriated for Subsequent Years

Creation – These funds are those funds in available fund balance which have been set aside for a particular purpose, namely to reduce the tax levy required to support an ensuing years budget.

Purpose – These funds are set aside and returned to the community by lowering the required tax levy to support the district's budget.

Funding Methods – These funds are assigned from fund balance to offset the next year's tax levy.

Use of Funds – It is recommended that the practice of returning these funds be reduced as much as possible, as budgets permit. As we develop tighter budgets, the amount of excess funds that will

be available at year-end is restricted. This makes it more difficult to guarantee that funds will be available to be returned in a subsequent year.

Monitoring of Balance – The balance and use of these funds are monitored by the Assistant Superintendent for Business.

Funding Level – Over time, it is recommended that the planned amount of assigned fund balance included as a revenue source in future budgets be limited.
